The list of certification programs open to pharmacists was compiled by the Council on Credentialing in Pharmacy in July 2012 from publicly available information. It is not necessarily an exhaustive list, as programs and their contact information change frequently.

## CERTIFICATION PROGRAMS FOR PHARMACISTS

### PHARMACIST-ONLY CERTIFICATIONS

<b>AMBULATORY CARE PHARMACY</b>		
<b>1. Name of credential(s):</b> Board Certified Ambulatory Care Pharmacist (BCACP)		
<b>2. Responsible Organization:</b> Board of Pharmacy Specialties (BPS)	<b>Address:</b>	Board of Pharmacy Specialties 2215 Constitution Avenue, NW Washington, DC 20037
	<b>Telephone:</b>	202-429-7591
	<b>Fax:</b>	202-429-6304
	<b>E-mail:</b>	<a href="mailto:info@bpsweb.org">info@bpsweb.org</a>
	<b>Web site:</b>	<a href="http://www.bpsweb.org">www.bpsweb.org</a>
<b>3. Certification Body Accredited?</b> Yes	<b>By what organization?</b> The National Commission for Certifying Agencies (NCCA) -but ambulatory care credential is ineligible for coverage until 2012	
<b>4. Disciplines certified (in addition to pharmacists):</b> None		
<b>5. Eligibility criteria for pharmacists:</b> <ul style="list-style-type: none"> <li>• Graduation from a pharmacy degree program accredited by the Accreditation Council for Pharmacy Education (ACPE) or a program outside the U.S. that qualifies the individual to practice in the jurisdiction.</li> <li>• Current, active license to practice pharmacy in the U.S. or another jurisdiction.</li> <li>• Achieving a passing score on the Ambulatory Care Specialty Certification Examination</li> <li>• Completion of four (4) years of practice experience with at least 50% of time spent in ambulatory care activities (as defined by the BPS Ambulatory Care Pharmacy Content Outline)</li> </ul> <p style="text-align: center; margin: 5px 0;"><b>OR</b></p> <p style="padding-left: 20px;">Completion of a PGY2 Ambulatory Care Pharmacy residency. (Effective January 1, 2013, only residencies accredited by the American Society of Health-System Pharmacists or other recognized bodies are creditable for this purpose.)</p> <p style="text-align: center; margin: 5px 0;"><b>OR</b></p> <p style="padding-left: 20px;">Completion of a PGY1 residency. (Effective January 1, 2013, only residencies accredited by the American Society of Health-System Pharmacists or other recognized bodies are creditable for this purpose); plus one (1) year of practice experience with at least 50% of time spent in ambulatory care activities (as defined by the BPS Ambulatory Care Pharmacy Content Outline).</p>		
<b>6. Duration of initial certification:</b> 7 years		

The list of certification programs open to pharmacists was compiled by the Council on Credentialing in Pharmacy in July 2012 from publicly available information. It is not necessarily an exhaustive list, as programs and their contact information change frequently.

## CERTIFICATION PROGRAMS FOR PHARMACISTS

### 7. Recertification requirements:

A current, active license to practice pharmacy is required for recertification. In addition, recertification for Board Certified Ambulatory Care Pharmacists (BCACP) is an assessment of a practitioner's knowledge and skills through one of two methods:

- Achieving a passing score on the 100-item, multiple-choice objective recertification examination, based on the content outline of the certification examination in their 7<sup>th</sup> year following initial certification

OR

Earning approved continuing education credit provided by a professional development program approved by BPS (details unavailable at this time). Earning 100 hours of continuing education credit provided by the professional development programs offered by American College of Clinical Pharmacy (ACCP) and/or the joint program offered by the American Society of Health-System Pharmacists (ASHP) and the American Pharmacists Association (APhA). No more than 50 hours will be accepted by BPS during the first 3 years of the certification cycle.

- Further, Ambulatory Care Pharmacy Preparatory Review and Recertification Courses offered by either of the approved providers may only be completed for recertification up to two times, in nonconsecutive years, during the 7-year recertification cycle.
- All candidates for recertification must have a current active license to practice pharmacy

### 8. Examination specifics:

- **Paper & Pencil or computer-based:**

Paper and pencil

- **Number of questions:**

200

- **Question format:**

The multiple-choice format is used exclusively. Four possible answers are provided for each question, with only ONE designated as the correct or best choice. It is to the candidate's advantage to answer every question on the examination, since the final score is based on the total number of questions answered correctly. There is no penalty for selecting an incorrect choice.

- **Cost:**

- Certification Application Fee=\$600
- Recertification Application Fee=\$400
- Certification Retake Fee (Within 2 Years)=\$300
- Recertification Retake Fee (Within 1 Year)=\$200
- Annual Fee for All BPS-Certified Pharmacists=\$100 (not required for the year of recertification)

- **Frequency of exam:**

Once yearly. BPS will establish test sites in approximately 77 cities worldwide for administration of its specialty certification examinations. Alternate sites could be identified and requested as per the guidelines in <http://www.bpsweb.org/apply/altersiterequest.cfm>

- **Exam Pass Rate:**

Undetermined. First administration scheduled for 2011.

The list of certification programs open to pharmacists was compiled by the Council on Credentialing in Pharmacy in July 2012 from publicly available information. It is not necessarily an exhaustive list, as programs and their contact information change frequently.

## CERTIFICATION PROGRAMS FOR PHARMACISTS

<p><b>9. Certification associated with specific training programs?</b> No</p>	<p><b>Offered by whom?</b> N/A</p>
<p><b>10. Certification exam prep courses/materials available?</b> Yes</p>	<p><b>Offered by whom?</b> BPS does NOT provide review information, preparatory courses, or study guides. However, such materials are available from outside organizations, state or local professional associations and colleges of pharmacy. The American College of Clinical Pharmacy, American Pharmacists Association, and the American Society of Health-system Pharmacists plan to provide resources to aid in test preparation.</p> <p><b>Suggested preparation:</b> Could include residency or other formal training; study of journal articles, textbooks, or other publications related to the content outline; continuing education programs and courses in specialized pharmacy practice; study groups and examination preparation courses (see above); and reviewing sample test questions on the BPS website.</p>
<p><b>11. Other Pertinent Information:</b></p> <ul style="list-style-type: none"> <li>• BPS is an autonomous division of the American Pharmacists Association (APhA) organized in 1976 as an independent certification agency of APhA.</li> <li>• Each specialty exam has a separate Content Outline (available online) validated through a national survey of pharmacist specialists.</li> <li>• Content Outlines provide details on major areas of responsibility for a specialist, the tasks required to fulfill these responsibilities, and the knowledge that underlies the performance of these tasks.</li> <li>• Each exam question is linked to a specific domain, task, and knowledge statement.</li> <li>• BPS utilizes the psychometric and exam administration services of Professional Examination Service of New York City in administration of its specialty certification programs.</li> </ul>	

The list of certification programs open to pharmacists was compiled by the Council on Credentialing in Pharmacy in July 2012 from publicly available information. It is not necessarily an exhaustive list, as programs and their contact information change frequently.

## CERTIFICATION PROGRAMS FOR PHARMACISTS

<b>CARDIOLOGY (PHARMACOTHERAPY ADDED QUALIFICATIONS)</b>		
<b>1. Name of credential(s):</b> Board Certified Pharmacotherapy Specialist with Added Qualifications in Cardiology		
<b>2. Responsible Organization:</b> Board of Pharmacy Specialties (BPS)	<b>Address:</b>	Board of Pharmacy Specialties 2215 Constitution Avenue, NW Washington, DC 20037
	<b>Telephone:</b>	202-429-7591
	<b>Fax:</b>	202-429-6304
	<b>E-mail:</b>	<a href="mailto:info@bpsweb.org">info@bpsweb.org</a>
	<b>Web site:</b>	<a href="http://www.bpsweb.org">www.bpsweb.org</a>
<b>3. Certification Body Accredited?</b> Yes	<b>By what organization?</b> The National Commission for Certifying Agencies (NCCA)	
<b>4. Disciplines certified (in addition to pharmacists):</b> None		
<b>5. Eligibility criteria for pharmacists:</b> The pharmacist must be a current Board Certified Pharmacotherapy Specialist (BCPS). In addition, he/she must submit one electronic copy of a portfolio that contains sufficient information to justify this additional credential and clearly defines the distinction between the individual and other BCPS who do not qualify for this additional recognition. The required elements of the portfolio are listed below: <ul style="list-style-type: none"> <li>• Letter from applicant requesting review of portfolio for purpose of granting Added Qualifications in Cardiology Pharmacotherapy.</li> <li>• Detailed summary of each of the elements presented in the application form with examples and timeframes (where applicable) below each statement whether or not included in CV. Current curriculum vitae</li> </ul>		
<b>6. Duration of initial certification:</b> 7 years		
<b>7. Recertification requirements:</b> Maintenance of BCPS status and resubmission of an electronic portfolio		
<b>8. Examination specifics:</b> This qualification does not require an exam beyond the one necessary to become a Board Certified Pharmacotherapy Specialist (BCPS). Please see other sheet for details on the Pharmacotherapy exam. A portfolio is required to receive cardiology added qualifications. Specifics referring to portfolio submission are listed below. <ul style="list-style-type: none"> <li>• <b>Cost:</b> <ul style="list-style-type: none"> <li>- Application for Added Qualifications=\$100</li> <li>- Renewal Application (every seven years) =\$50</li> <li>- Annual Fee for Added Qualifications=No charge</li> <li>- Reconfirmation of Added Qualifications=50% of Current Added Qualifications Application Fee</li> </ul> </li> </ul>		

The list of certification programs open to pharmacists was compiled by the Council on Credentialing in Pharmacy in July 2012 from publicly available information. It is not necessarily an exhaustive list, as programs and their contact information change frequently.

## CERTIFICATION PROGRAMS FOR PHARMACISTS

<ul style="list-style-type: none"> <li>• <b>Frequency of portfolio review:</b> Once yearly (Deadline: December 31)</li> </ul>	
<b>9. Certification associated with specific training programs?</b> No	<b>Offered by whom?</b> N/A
<b>10. Certification exam prep courses/materials available?</b> No	<b>Offered by whom?</b> N/A

## CERTIFICATION PROGRAMS FOR PHARMACISTS

TOXICOLOGY		
<b>1. Name of credential(s):</b> Diplomate of the American Board of Applied Toxicology (DABAT)		
<b>2. Responsible Organization:</b> American Board of Applied Toxicology (ABAT)	<b>Address:</b>	American Board of Applied Toxicology c/o California Poison Control System, San Francisco 951 Calle Verde Martinez, CA 94553
	<b>Telephone:</b>	415-502-6001
	<b>E-mail:</b>	<a href="mailto:fcantrel@ucsd.edu">fcantrel@ucsd.edu</a>
	<b>Web site:</b>	<a href="http://www.clintox.org/ABAT_Main.cfm">www.clintox.org/ABAT_Main.cfm</a>
<b>3. Certification Body Accredited?</b> No	<b>By what organization?</b> N/A	
<b>4. Disciplines certified (in addition to pharmacists):</b> A graduate of a college or university with an earned doctoral degree in a biomedical discipline. Applicants without doctoral degrees must possess a baccalaureate degree in a health science discipline, such as pharmacy or nursing, followed by a minimum of five years of full-time professional experience in applied clinical toxicology. Scholastic coursework is not considered to be professional experience. Applicants holding the Doctor of Medicine, Doctor of Osteopathy, or Doctor of Veterinary Medicine degree are not eligible to sit for the ABAT examination.		
<b>5. Eligibility criteria for pharmacists:</b> Completion of at least 12 months of post-doctoral training (i.e., residency or fellowship) in clinical toxicology or a closely related field. Applicants without post-doctoral training must have a minimum of at least three years of professional experience related to applied clinical toxicology after completion of their doctoral degree. To be prepared for the examination, candidates should have considerable clinical experience and an understanding of the clinical and environmental factors associated with various types of toxicological problems. Examples of activities related to the practice of applied clinical toxicology include consulting with medical personnel on patient care issues, administrative responsibility for a poison control center with consultative responsibilities, rendering opinions on product toxicity, teaching clinical toxicology to students, practitioners or colleagues, collaborating with medical toxicologists, and research in applied clinical toxicology. Applicants must demonstrate experience in all the areas of clinical, research and teaching activities, and leadership. An abundance of experience in one area will not substitute for lack of experience in another. Applicants holding a degree in a health care profession in which licensing is required must be in good standing with the appropriate jurisdictional board and must be eligible for, or possess, a valid, unrestricted license to practice. A copy of the license must accompany the application. Applicants must be members in good standing of the American Academy of Clinical Toxicology at the time of their application.		
<b>6. Duration of initial certification:</b> 5 years.		

The list of certification programs open to pharmacists was compiled by the Council on Credentialing in Pharmacy in July 2012 from publicly available information. It is not necessarily an exhaustive list, as programs and their contact information change frequently.

## CERTIFICATION PROGRAMS FOR PHARMACISTS

<b>7. Recertification requirements:</b> Must do so every 5 years (format unknown)	
<b>8. Examination specifics:</b> <ul style="list-style-type: none"> <li>• <b>Paper &amp; Pencil or computer-based:</b> Paper &amp; Pencil</li> <li>• <b>Number of Questions:</b> 125 short answer, 4 problem solving questions</li> <li>• <b>Question Format:</b> The first section is comprised of four multi-part, written, problem-solving case studies. These case studies cover a variety of topics including acute and chronic exposures, environmental or occupational toxicology, clinical study design and evaluation, expert testimony or the toxicology laboratory. The second is comprised of up to 125 short answer (multiple-choice) questions covering a variety of toxicology topics. These questions are meant to measure diversity of knowledge rather than trivia.</li> <li>• <b>Cost:</b> \$500</li> <li>• <b>Frequency of exam:</b> Annually at the North American Congress of Clinical Toxicology (NACCT) typically held during September or October</li> </ul>
