About IACP

The Indian Association of Colleges of Pharmacy (IACP) founded in 2010 is a national organization whose,

Mission: To Serve its member colleges and their respective faculties by acting as their advocate at national level

- By providing forums for interaction and exchange of information among its members
- By recognizing outstanding performance among its member educators and by assisting member colleges and schools in meeting their mission of educating and training pharmacists and pharmaceutical scientists

Vision: To provide leadership in advancing and enhancing the quality of Pharmacy education and training in its member colleges

About Indian Congress of Pharmacy Practice 2020 & 4th IACP Convention

IACP welcomes you to our flagship event “IACP Convention” and this year is our **4th IACP Convention** which is happening in Ooty at **Monarch Hotel**

At IACP Convention we provide ideal opportunities for networking with peers and leaders who are advancing, enhancing the quality of Pharmacy Education & Research.

Pharmaceutical educators, researchers and practitioners gather to share ideas and visions through presentations, tutorials and workshops.

Theme of the Conference

This year's Conference theme is **“Pharmacy Practice & Beyond”** Conference primary focus is Practice of pharmacy that responds to the needs of people who use the pharmacist services to provide optimal, evidence-based care.

The concept of pharmaceutical care evolves through a systematic comprehensive approach, which requires that the pharmacist should work in collaboration with the health care team and identify and resolve the actual and potential drug-related problems and prevent the patients from the potential harm of medicines.

The changing face of pharmacy practice requires that the pharmacy schools should intervene with their programs with the competence to take up the challenge of changing role of the pharmacy profession. The education should provide ability for critical thinking, improve problem-solving skills, and decision-making during pharmacotherapy. The student should be trained to create, transmit, and apply new knowledge based on cutting-edge research in the pharmaceutical, social, and clinical sciences; collaborate with other health professionals and to enhance the quality of life through improved health for the people of our society and as well as the global community.

Conference Highlights

- International Faculty of University of Maryland, Southern Illinois University & University of Arizona

About Venue:

The Monarch, Ooty a beautiful resort perched on a hill top among lush green tea plantations, Ooty, also known as Ooty, is a hill station in Tamil Nadu, Ooty oozes simplicity, devoid of any boundaries, so anyone who visits the place can feel at one with the local culture. The journey to Ooty itself is dotted with magnificent sights of the awe-inspiring Nilgiri hills, tea gardens, and serene waterfalls. The cool, peaceful landscape of Ooty is almost movie-like – winding country lanes that you can spend hours simply walking on, and the charm of old-world colonial architecture infuses fresh air into the souls of travelers. For anyone looking for a respite from the mind-boggling humidity and the scorching Indian sun, Ooty is the place to be!
