

Nikshay Aushadhi User Manual

Primary Health Institution

(PHI)

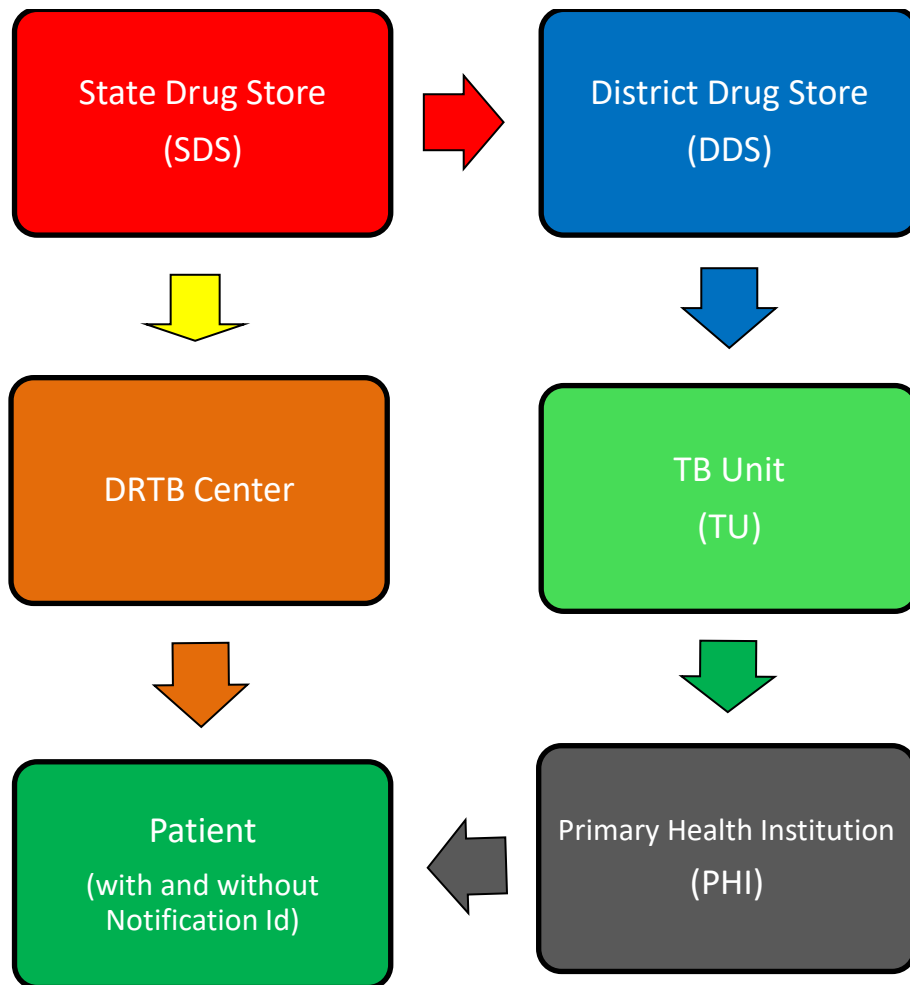

This user manual provides a complete guidance on all online processes through **Nikshay Aushadhi** on a PHI level. From requesting a drug to issuing it to the patient, this manual helps user through online processes of Nikshay Aushadhi application.

The following modules are covered in the user manual:

➤ <i>Issue to Patient</i>	2
➤ <i>Issue to Patient from DRTB store</i>	10
➤ <i>Issue to Patient Report</i>	14
➤ <i>Return from Patient</i>	15
➤ <i>Issue to ART centre</i>	21
➤ <i>Return from ART Centre</i>	26
➤ <i>Return from PHI to TU</i>	29
➤ <i>Issue to Third Party</i>	32

Issue to Patient

Patients to receive drugs for the treatment of drugs sensitive TB or drug resistant TB by DOTs Provider or Treatment Supporter as per the regimen prescribed by the doctor. The DOTs Provider or Treatment Supporter shall receive drugs from PHI. PHIs shall issue drugs on monthly basis against the unique Notification ID generated by Nikshay through Nikshay Aushadhi.

Flow of Drug from State Drug Store to Patient

In certain circumstances, when a patient enrolled for the first time, he may not have Notification ID available with him during the receipt of medicines. In such cases, PHI to issue drug without Notification ID, which is strictly limited to one time use only. During his/her second visit, availability of Notification ID is mandatory.

Process Overview

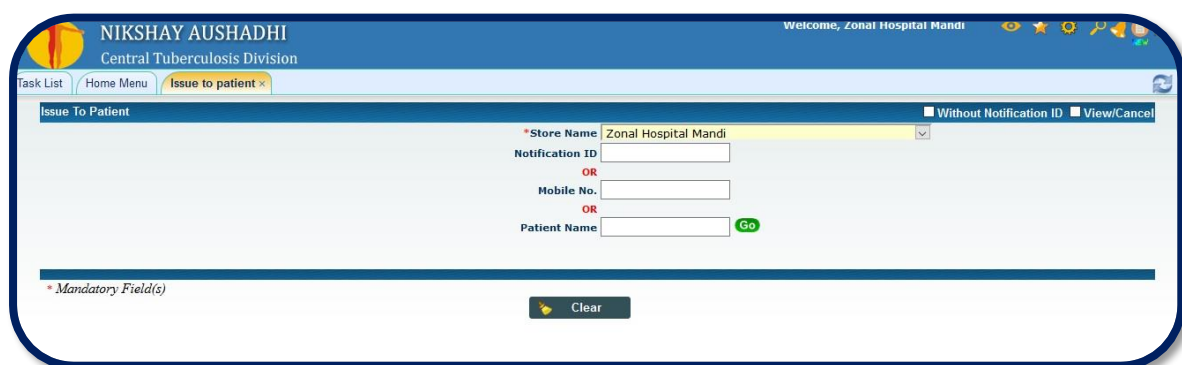

Nikshay Aushadhi application allows user to issue the drugs to the patients through online process. There are two ways to issue to patient as:

- Issue to patient **with Notification Id** – Patients which are registered in Nikshay Application have a unique 'Notification Id'.
- Issue to patient **without Notification Id** – Patients which are not registered in Nikshay Application or they do not have any 'Notification Id'.

The TB patients are categorized into following two TB categories:

1. First Line Patient,
2. Second Line Patient

Path: Services-> Issue Dispatch -> Issue to Patient

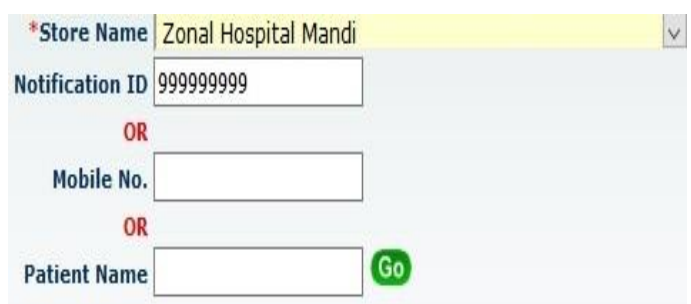

The screenshot shows the 'Issue to Patient' form in the NIKSHAY AUSHADHI application. The header includes the logo, 'NIKSHAY AUSHADHI Central Tuberculosis Division', and a welcome message 'Welcome, Zonal Hospital Mandi'. The navigation bar has 'Task List', 'Home Menu', and 'Issue to patient'. The form itself has a title bar 'Issue To Patient' and a search section with a dropdown for 'Store Name' (set to 'Zonal Hospital Mandi') and checkboxes for 'Without Notification ID' and 'View/Cancel'. Below this are three input fields: 'Notification ID', 'Mobile No.', and 'Patient Name', each preceded by 'OR' and a red asterisk. A green 'Go' button is next to the 'Patient Name' field. At the bottom, there is a 'Clear' button and a note '* Mandatory Field(s)'.

Issue to Patient **with Notification Id:**

To issue the drugs to patients which are having Notification Id from Nikshay, follow the steps below.

Steps to be follow:

1. Go to 'Issue to Patient'
2. The patients which are already registered into the application can be searched by following three parameters:
 - a. Notification Id,
 - b. Patient Mobile Number, and
 - c. Patient Name

This is a close-up of the search section of the 'Issue to Patient' form. The 'Store Name' dropdown is set to 'Zonal Hospital Mandi'. The 'Notification ID' field contains the text '999999999'. Below it are the 'Mobile No.' and 'Patient Name' fields, each preceded by 'OR' and a red asterisk. A green 'Go' button is positioned to the right of the 'Patient Name' field.

- Enter any of these parameter and click on 'GO' button.

- The system will open the issue to patient form.
- Following patient details will be shown such as:
 - Previous Issue Details,
 - Patient Demographic Details,
 - Diagnosis Details,
 - Any other details like remark/note

User Name:
(Zonal Hospital Manager)

Reference Id:

- After saving the issue data, a unique id generated automatically by the system, called 'Reference Id'.
- This reference id is given to the patient only when the drugs are issued without notification id.
- This is a onetime process for each patient. After first time, the patient must be issued with notification id.
- The patients with similar name can be identified with this 'Reference Id' into the system.

Search the Patient Without Notification Id with Similar Names:

When drugs are issued to patient without notification id, a unique reference id is given to patient by the system. In case two or more patients with 'similar names' have been issued through 'without notification id' process, the user can search them by their 'Name' into the system.

Identify patient with similar names by unique Reference Id:

As user enters the name of the patient and click on 'Go', the system will show the details of all the patients with similar names, which have been issued without notification id from the system. Each of these patients has been given a unique 'Reference Id', so by identifying this id, the user can select the required patient to be issued. To proceed, click on 'Go' button with the record of the patient and system will open the Issue to Patient form. The user can now repeat the issue process and generate the issue voucher.

The screenshot displays the 'Nikshay Aushadhi' web application interface. At the top, the header includes the logo and text 'NIKSHAY AUSHADHI Central Tuberculosis Division'. Below the header, there are navigation tabs: 'Task List', 'Home Menu', and 'Issue to patient'. The main content area is titled 'Issue To Patient' and contains a search form. The form has a dropdown menu for 'Store Name' (currently set to 'Zonal Hospital Mandi'), a text input for 'Notification ID', a text input for 'Mobile No.', and a text input for 'Patient Name'. There are 'OR' labels between the input fields. A green 'Go' button is next to the 'Patient Name' input. To the right of the search form, there are checkboxes for 'Without Notification ID' and 'View/Cancel'. Below the search form, there is a table titled 'Nikshay Aushadhi Details' with the following columns: 'Reference ID', 'Patient Name', 'Age/Gender', 'Mobile No.', 'Store Name', 'Address', and 'Show Details'. The table contains two rows of data. The first row has 'REFID1906260002', 'Ram Kumar', '32Yr/Male', '--', 'Zonal Hospital Mandi', '--', and a green 'Go' button. The second row has 'REFID1906260001', 'Ram Kumar', '46Yr/Male', '--', 'Zonal Hospital Mandi', '--', and a green 'Go' button. At the bottom left of the table, there is a note: '* Mandatory Field(s)'. At the bottom center, there is a 'Clear' button.

Issue to Patient from DRTB store:

The drugs are also issued to patients from DRTB centres, such as Bedaquilline or Delamanid. In Nikshay Aushadhi application, the DRTB stores are mapped onto a PHI login id. A DRTB centre which is associated with a PHI, is added on that PHI login id. The user can select the stores either PHI or DRTB, as per the requirement, to use any process.

Invalid Id or another State Notification Id:

Nikshay Aushadhi application allows the user to issue the drugs to patients which are registered in the same state in which the issuing store is located. The patients with notification id outside of the state cannot be issued from the system. If user enters the other state id, then the system will give the alert that **“Patient is registered in another state, the drug is not allowed to be issued”**.

The screenshot shows the 'Issue to Patient' form in the Nikshay Aushadhi application. The form is titled 'Issue To Patient' and includes a header with the Nikshay Aushadhi logo and 'Central Tuberculosis Division'. The form has a tabbed interface with 'Issue to patient' selected. A red error message at the top states: 'Patient is registered from another state, Drug is not allowed to be issued.' The form contains fields for 'Store Name' (Zonal Hospital Mandi), 'Notification ID' (7795155), 'Mobile No.', and 'Patient Name'. There are 'OR' labels between the fields. A 'Go' button is next to the Patient Name field. A 'Clear' button is at the bottom. A legend indicates that fields with an asterisk are mandatory. The 'Without Notification ID' and 'View/Cancel' checkboxes are visible in the top right corner.

Similarly if user enters Invalid/incorrect notification id, system will give alert that **“Invalid Notification id”**.

The screenshot shows the 'Issue to Patient' form in the Nikshay Aushadhi application. The form is titled 'Issue To Patient' and includes a header with the Nikshay Aushadhi logo and 'Central Tuberculosis Division'. The form has a tabbed interface with 'Issue to patient' selected. A red error message at the top states: 'Invalid Notification ID/Data Not Found'. Return from Patient

Return from patient process is used to get the drugs return from the registered patient back to the PHI/DRTB store.

Flow of Drug Return from Patient to Drug Stores

Return from patient process is only applied for those patients who are registered into the system and have notification id. Drugs can be returned into the by patient notification id. Also return from patient is a onetime process, the drugs cannot be returned back from patient more than once.

Return from patient process is used in any of the following cases such as:

- Died
- Default
- Other

In Nikshay Aushadhi application, the drugs can be returned from patient in following way:

- Return to the Issuing PHI store (store which issued the drugs to patient)
- Return to any other PHI store (located anywhere else)
- Return to a PHI if drugs issued from DRTB store

Return from Patient process:

To return a drug from the patient through system, steps are given below.

Steps to be follow:

1. Go to 'Return from Patient'
2. Enter the Notification Id of the patient and click on 'GO' button
3. System will show all the issue records which has been issued on this id

Issue to ART Centre

Drugs can be issued to an ART Centre from a PHI login through 'Issue to ART' (Dispatch with Request) process. To issue drugs to ART centre, follow the steps below.

Issue to ART Centre process:

Steps to be follow:

1. Go to 'Dispatch without Drug Request' (issue to ART)
2. Select the store type as ART and select the ART centre name

The screenshot shows the 'Dispatch Without Drug Request' form in the NIKSHAY AUSHADHI system. The form includes fields for Store Name (PHC NEIL ISLAND), Store Type (ART), Issue Date, Item Category (Drug), Drug Request Generating Store (Select Value), Issue No. (Select Value), and ART Andaman 1. Below these are sections for Drug Name, Batch No., Expiry, Available Qty., Manufacturer Name, Requested Qty., and Issue Qty. There are also fields for Received By, Name of the Receiver, and Approved Remarks. The form has buttons for Draft Save, Save, and Clear.

3. Select 'Issue Date' and click on 'Drug Finder'
4. Select the drug by entering the name of the drug in the search bar

The screenshot shows the 'Drug Search' results in the NIKSHAY AUSHADHI system. The search bar contains 'Bedaquiline (BDQ) (PC52) [bdq]'. The results table lists various drugs with their details.

Return on Behalf of Tuberculosis Division (TB)

Issue to Third Party

To issue the drugs to a third party from the system, follow the steps below:

Steps to be follow:

1. Go to 'Issue to Third Party'
2. Select the 'Third party' name from the list
3. Select the date and click on 'Drug Finder'

The screenshot shows the 'Issue to Third Party' form in the NIKSHAY AUSHADHI system. The header includes the logo, 'NIKSHAY AUSHADHI Central Tuberculosis Division', and a welcome message for 'Zonal Hospital Mandi'. The navigation bar has 'Task List', 'Home Menu', and 'Issue To Third Party' (selected). The form fields are as follows:

Issue To Art Center		View	
Store Name	Zonal Hospital Mandi	*Category	Drug
*Third Party Name	Alert India	Req. Date	01-Jul-2019

Below the form is a 'New Request Details' section with a table header:

Drug Name	Batch No.	Expiry Date	Available Qty.	*Issue Qty.
-----------	-----------	-------------	----------------	-------------

A 'Drug Finder' button is located to the right of the table header.

4. Choose the drug and enter the quantity to issue
5. Enter 'Approval' and 'Receive' details
6. Enter the 'Remarks' and click on 'Save' button
